

WINSTON MANDIMIKA

MSc Computing Student

07983097946 | winstonmandimika@gmail.com

I'm a eager and highly ambitious MSc Computing student (My studies have finished & results pending). I have hands-on experience with mobile and web application development using React Native, Python, and React Native etc. I possess practical experience across Microsoft Azure, REST APIs, SQL/MySQL, and Git. Self-taught in Unity and comfortable producing assets with Adobe suite. I turn ambiguous problems into clear, testable tasks and I hope to find myself in a team where my love and knowledge for technology can be leveraged .

WORK EXPERIENCE

Customer Support – Sopra Steria

01/23 – 02/24

At Sopra Steria I liaised with external and government organisations, local authority, identified residential repairs and scheduled tradesmen to tend to issues in properties housed by military families

Health Advisor – Adecco

12/20 – 08/22

Here I contributed to the COVID-19 response initiative, working with T&T on national issues, IAC on global cases, and also worked together on the national vaccination campaign.

Astraios Collaboration with SJEC (India)

01/25 - Present

Here I assisted in developing an application using Python to display the outcome of the device developed by the SJEC team.
